Company Profile

- Jahagirdhar Aero Products (JAP) is a dedicated UAV & Target Manufacturer and Service Provider in India for the last 20 years. The company has expertise in system integration for surveillance of unmanned aircrafts, aerial targets and unmanned airships, aerostats and balloons. And, JAP is ISO 9001 - 2008 certified for SYSTEMS INTEGRATION AND SERVICES OF UNMANNED AERIAL SYSTEMS AND TARGETS. JAP also provides services for the aerial survey, aerial platforms for research & data acquisition, aerial advertisements, targets for missiles and air defence. JAP's area of expertise include aerial photography for surveillance, mines detection, archeology and research, aerobiological research and pollution monitoring, targets for missiles and anti-aircraft guns, training of UAV & Target operators, RCS calibration for RADAR, test bed for airborne systems, range validation of tracking equipment, hardware-in-loop flight evaluation for missile subsystems.
- UCAL Fuel Systems Limited offers comprehensive Fuel Management Systems for Automotive sector. UCAL Group has been providing customers with end - to - end solutions from product designing to analysis, prototyping, testing and validation services. The company has one of the most advanced R & D centre and state-of-art six manufacturing plants in India, two in USA.
- Now, UCAL Fuel Systems Limited and Jahagirdar Aero Products have joined hands to form "UCAL-JAP SYSTEMS LTD", dedicated to Unmanned Aerial Vehicle business in India. UCAL-JAP has in-house capability of Design, Prototyping, Testing, Manufacturing and Operating a wide range of Unmanned Systems and Targets. UCAL-JAP is pioneering UAV and Target hiring services in India. This unique combination of UAV experience, infrastructure and resources makes UCAL-JAP an ideal partner for companies desirous of entering the rapidly growing and largely untapped Indian Unmanned Systems market. Your Search for Unmanned Aerial Systems Solutions ends here.
